

## TF

So Naturally  
Timed affexion, is directed  
At me, with no heavens, but only hells

They try spells, and poof their dust  
They preach their love, while wielding lust

Are you looking for love  
Or a silenced crowd  
Am I hearing enough  
Is there something going on  
Are you looking for love  
You know you don't want  
to be apart of  
Under circumstance

## PRE-GAME NATURE

So it goes  
Over as I climb upon the shore  
Such a product of you and yours  
The traits they adore  
So it goes  
No one knows the troubles I  
Store, the growing sore, it's hard to ignore  
So dance away the shadows at your door  
So it goes  
You couldn't ask any more

I remember when I said goodbye  
That look in your eye  
Spaceless

And you said to me  
With such glee  
I'll see you, tomorrow

## THE MEMORIES GONE

What a coincidence  
You want me gone  
Gone all along when  
I'm right  
Here in your very arms  
Not matter of a confidence  
Or fragile home  
Life is a xxxxxx existence  
Become the drone

But when I think of you  
The Memories Gone

## **EMERALDS**

WE'RE ALL WANDERING TO GET A CHANCE  
TO TELL OUR LIES

WE'RE LEFT WANDERING, OVER SOMETHING  
CLOSE YOUR EYES

WE'RE ALL WANDERING TO GET CHANCE  
WERE ALL WANDERING , FOR SOMETHING  
CLOSE YOUR EYES

## **LETS GOGH**

let's go let's go let's go

I'd imagine you've heard it before  
I was lost but now I'm reborn

Into a trace

Of myself  
From a time id lost all hope  
But now I can finally cope  
Head over water until I choke

The better I am  
When things are in place  
Brings a smile upon my face  
Then I know I'm right in space  
things are falling with such grace

Lets Go Lets Go

The time now  
The fires starting  
To fill the ground  
Right where I'm walking

The hit is on  
Can you rate that feeling  
Don't leave alone  
What you could be seeing
